

Christmas Division Practice

3-digit number divided by 1-digit number: with remainders

Find the quotient.

1. $8 \overline{)761}$

2. $6 \overline{)616}$

3. $8 \overline{)473}$

4. $6 \overline{)376}$

5. $6 \overline{)567}$

6. $5 \overline{)487}$

7. $3 \overline{)352}$

8. $8 \overline{)561}$

9. $9 \overline{)778}$

10. $2 \overline{)477}$

11. $4 \overline{)175}$

12. $6 \overline{)227}$

13. $4 \overline{)455}$

14. $7 \overline{)424}$

15. $8 \overline{)603}$

16. $9 \overline{)143}$

17. $4 \overline{)141}$

18. $6 \overline{)353}$

Christmas Division Practice

3-digit number divided by 1-digit number: with remainders

Find the quotient.

1. $8 \overline{) 761} \text{ 95 r1}$

2. $6 \overline{) 616} \text{ 102 r1}$

3. $8 \overline{) 473} \text{ 59 r1}$

4. $6 \overline{) 376} \text{ 62 r4}$

5. $6 \overline{) 567} \text{ 94 r3}$

6. $5 \overline{) 487} \text{ 97 r2}$

7. $3 \overline{) 352} \text{ 117 r1}$

8. $8 \overline{) 561} \text{ 70 r1}$

9. $9 \overline{) 778} \text{ 86 r4}$

10. $2 \overline{) 477} \text{ 238 r1}$

11. $4 \overline{) 175} \text{ 43 r3}$

12. $6 \overline{) 227} \text{ 37 r5}$

13. $4 \overline{) 455} \text{ 113 r3}$

14. $7 \overline{) 424} \text{ 60 r4}$

15. $8 \overline{) 603} \text{ 75 r3}$

16. $9 \overline{) 143} \text{ 15 r8}$

17. $4 \overline{) 141} \text{ 35 r1}$

18. $6 \overline{) 353} \text{ 58 r5}$
