

Write numbers in each square to complete the story.

There are  ducks  
swimming in the pond.

more ducks come  
to swim.

Now there are  ducks  
swimming in the pond.

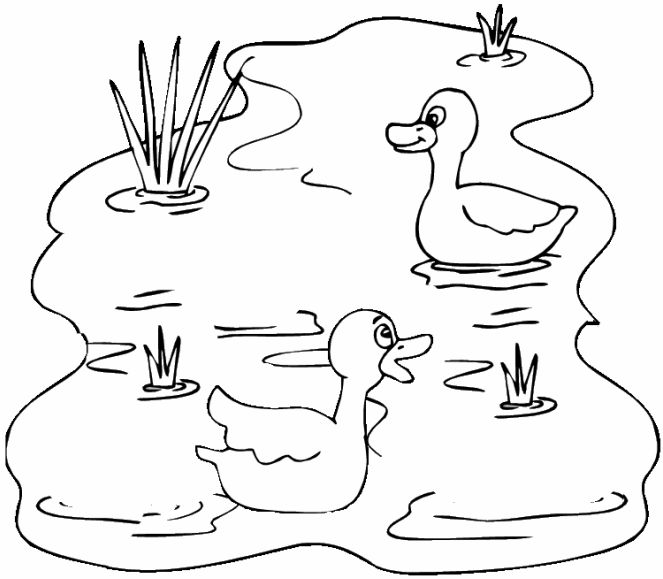

$$\begin{array}{c}
 \text{duck} \text{ duck} + \text{duck} \text{ duck} = \text{input box} \text{ duck's} \\
 2 + 2 = \text{input box}
 \end{array}$$

Cut out the ducks and glue them in the pond.

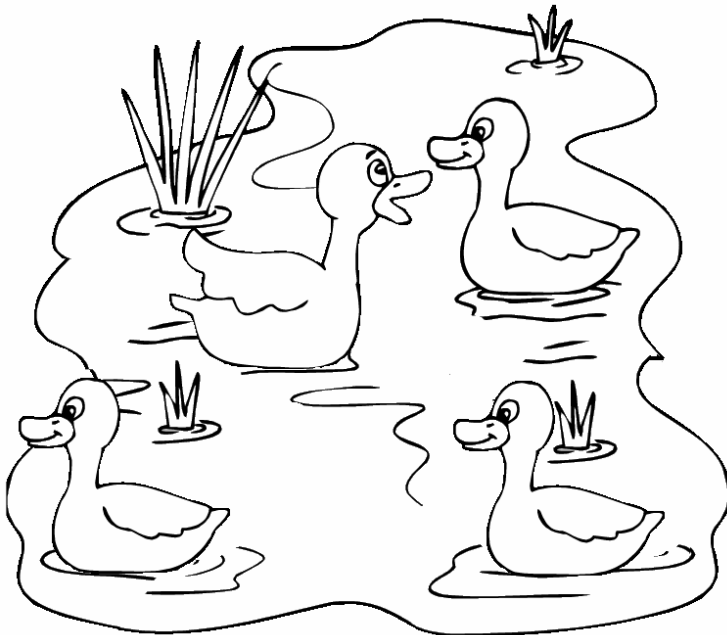

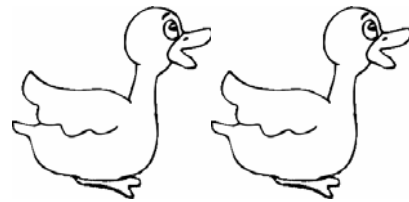

How Many Ducks in the Pond worksheet 2a answer key

Write numbers in each square to complete the story.

There are  ducks swimming in the pond.

more ducks come to swim.

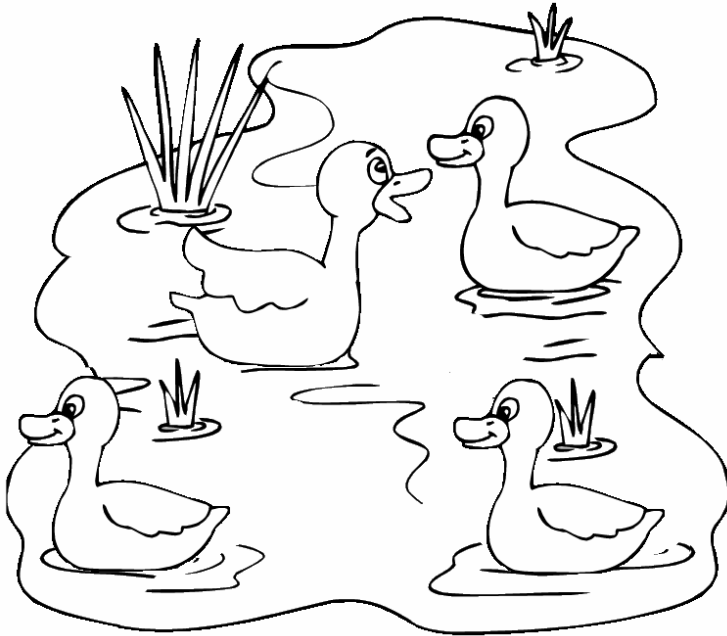

Now there are  ducks swimming in the pond.

$$\begin{array}{c} \text{duck} \text{ duck} + \text{duck} \text{ duck} = \text{input} \text{ duck's} \\ 2 + 2 = \text{input} \end{array}$$

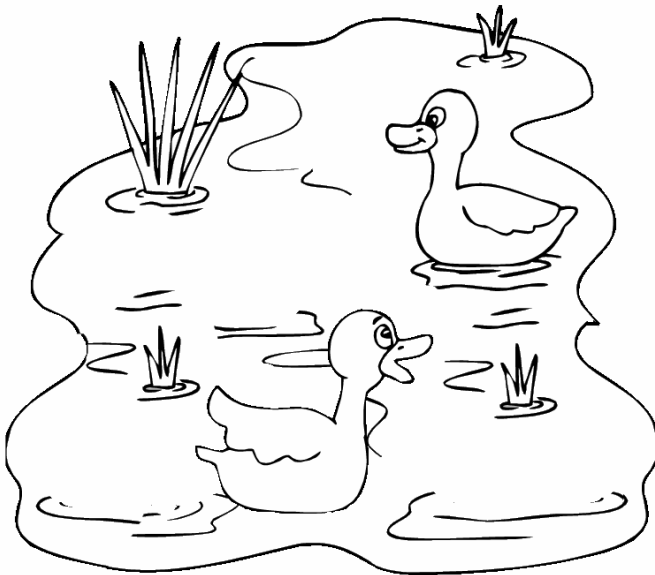

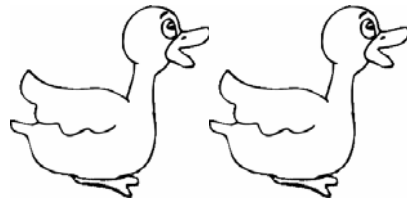

How Many Ducks in the Pond worksheet 2a answer key

Write numbers in each square to complete the story.

There are  ducks swimming in the pond.

ducks go for a walk.

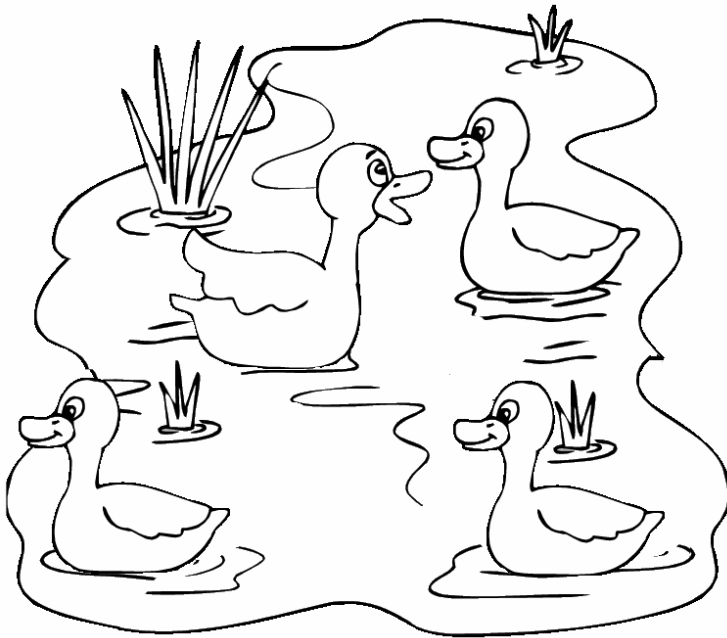

Now there are  ducks swimming in the pond.

---

 -  =   's       $4 - 2 =$

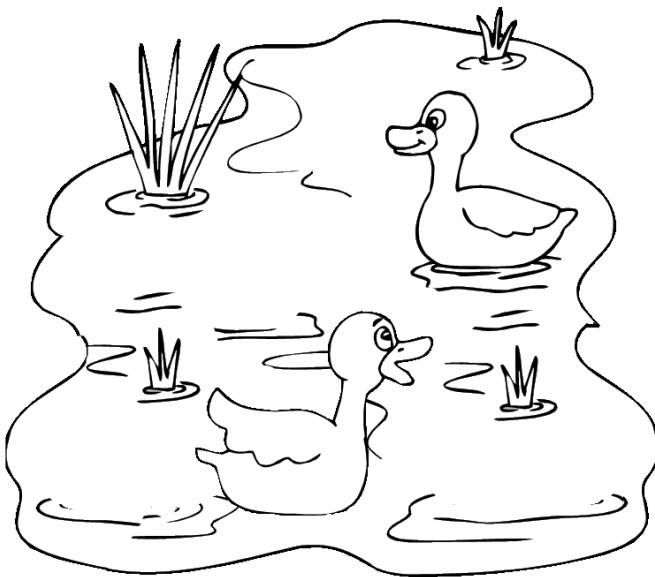

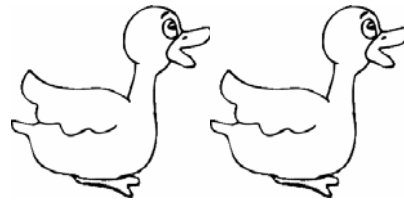

---

Write numbers in each square to complete the story.

There are  ducks swimming in the pond.

ducks go for a walk.

Now there are  ducks swimming in the pond.

---

$$\text{four ducks} - \text{two ducks} = \text{2 ducks 's}$$

$$4 - 2 = \text{2}$$

---
