

Fractions

A fraction can be used to name a part of a group.
 In the example on the right, three of the five balls are soccer balls. This is written as $\frac{3}{5}$

Two fifths of the balls are basketballs.
 This is written as $\frac{2}{5}$

What fraction is shaded? Write the fraction.

1. $\frac{3}{5}$

2. _____

3. _____

4. _____

5. _____

6. _____

7. _____

8. _____

9. _____

10. _____

11. _____

12. _____

13. _____

14. _____

15. _____
