

Halloween Division Practice

3-digit number divided by 1-digit number: with remainders

Find the quotient.

1. $4 \overline{)261}$

2. $2 \overline{)865}$

3. $7 \overline{)844}$

4. $7 \overline{)478}$

5. $8 \overline{)827}$

6. $7 \overline{)338}$

7. $6 \overline{)817}$

8. $6 \overline{)470}$

9. $9 \overline{)733}$

10. $8 \overline{)321}$

11. $3 \overline{)542}$

12. $6 \overline{)497}$

13. $5 \overline{)191}$

14. $6 \overline{)238}$

15. $6 \overline{)982}$

16. $5 \overline{)576}$

17. $6 \overline{)781}$

18. $7 \overline{)368}$

Halloween Division Practice

3-digit number divided by 1-digit number: with remainders

Find the quotient.

1. $4 \overline{) 261} \text{ } 65 \text{ r}1$

2. $2 \overline{) 865} \text{ } 432 \text{ r}1$

3. $7 \overline{) 844} \text{ } 120 \text{ r}4$

4. $7 \overline{) 478} \text{ } 68 \text{ r}2$

5. $8 \overline{) 827} \text{ } 103 \text{ r}3$

6. $7 \overline{) 338} \text{ } 48 \text{ r}2$

7. $6 \overline{) 817} \text{ } 136 \text{ r}1$

8. $6 \overline{) 470} \text{ } 78 \text{ r}2$

9. $9 \overline{) 733} \text{ } 81 \text{ r}4$

10. $8 \overline{) 321} \text{ } 40 \text{ r}1$

11. $3 \overline{) 542} \text{ } 180 \text{ r}2$

12. $6 \overline{) 497} \text{ } 82 \text{ r}5$

13. $5 \overline{) 191} \text{ } 38 \text{ r}1$

14. $6 \overline{) 238} \text{ } 39 \text{ r}4$

15. $6 \overline{) 982} \text{ } 163 \text{ r}4$

16. $5 \overline{) 576} \text{ } 115 \text{ r}1$

17. $6 \overline{) 781} \text{ } 130 \text{ r}1$

18. $7 \overline{) 368} \text{ } 52 \text{ r}4$
