

Multiply by 8

Solve the multiplication problems to answer the riddle.

$8 \times 3 = \underline{\quad}$ r

$8 \times 7 = \underline{\quad}$ b

$8 \times 2 = \underline{\quad}$ a

$8 \times 5 = \underline{\quad}$ t

$8 \times 8 = \underline{\quad}$ n

$8 \times 4 = \underline{\quad}$ c

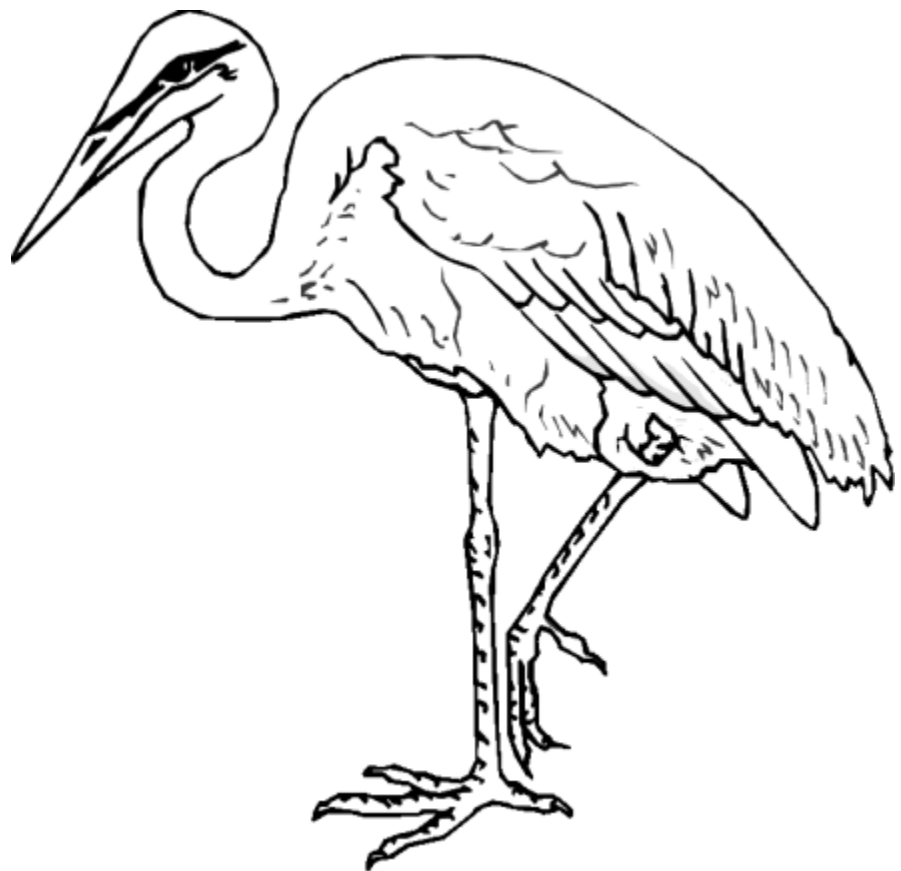

$8 \times 1 = \underline{\quad}$ g

$8 \times 9 = \underline{\quad}$ e

$8 \times 6 = \underline{\quad}$ h

$8 \times 10 = \underline{\quad}$ i

Which bird can lift
the heaviest weights?

--	--	--

40 48 72

--	--	--	--	--

32 24 16 64 72

Multiply by 8

Solve the multiplication problems to answer the riddle.

$8 \times 3 = \underline{24} \quad r$

$8 \times 7 = \underline{56} \quad b$

$8 \times 2 = \underline{16} \quad a$

$8 \times 5 = \underline{40} \quad t$

$8 \times 8 = \underline{64} \quad n$

$8 \times 4 = \underline{32} \quad c$

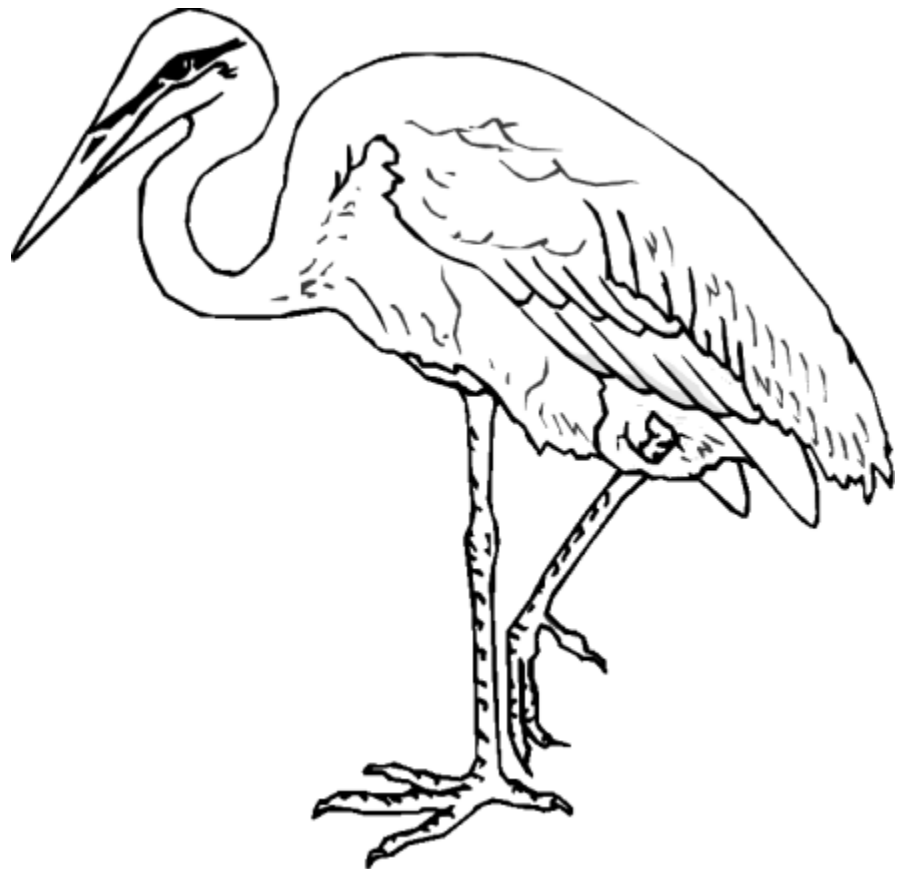

$8 \times 1 = \underline{8} \quad g$

$8 \times 9 = \underline{72} \quad e$

$8 \times 6 = \underline{48} \quad h$

$8 \times 10 = \underline{80} \quad i$

Which bird can lift
the heaviest weights?

t	h	e
---	---	---

40 48 72

c	r	a	n	e
---	---	---	---	---

32 24 16 64 72
