

Painter Pete color booklet instructions.

You will need 4 sheets of 8.5" x 11" paper.

First print run.

1. Insert paper into your printer.
2. Open the Painter Pete booklet in your browser.
3. Click the printer icon in Adobe Reader (or click on File/print).
A print dialog box will open
4. Under Print Range select Pages and change the 1-9 to a 2-9
5. Under Subset select odd pages only.
6. Click O.K. to print.

After the odd pages 2-9 have finished printing, reinsert the pages in your printer to print on the back side. (all printers are different so you may need to test this on your printer)

Second print run (or printing the back)

1. Click the printer icon in Adobe Reader (or click on File/print).
A print dialog box will open
2. Under Print Range select Pages and change the 1-9 to 2-9
3. Under Subset select even page only.
4. Select reverse pages (found under the subset button)
5. Click O.K. to print.

After all four pages have come off the printer you should be able to fold in the middle and staple the left side to bind.

Remember, all printers are a little different so you may have to experiment with what order of printing works on your printer.

Only you can help Painter Pete learn
all ten of the colors in this book.

Trace the color word on each can of
paint and then color the can of paint
that color.

Inside back cover. This page intentionally left blank.

Painter Pete Learns His Colors
