

The Largest Objects

Color the largest object in each box.

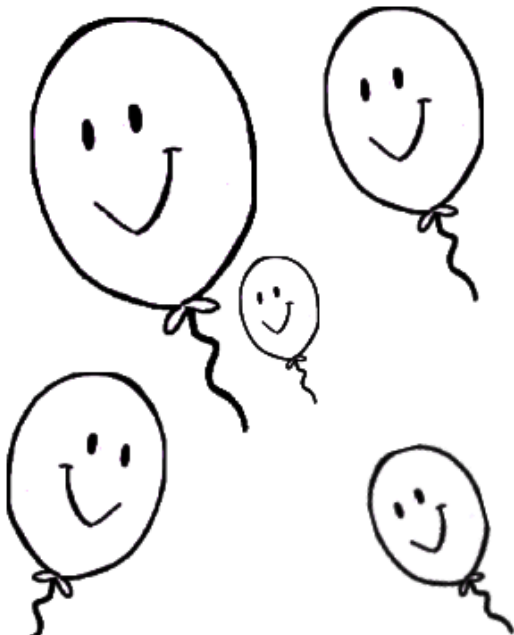

bee

A box containing five line drawings of bees. One bee in the center is significantly larger than the other four, which are arranged around it.

ball

A box containing five line drawings of balls. One ball in the center is significantly larger than the other four, which are arranged around it.

balloon

A box containing five line drawings of balloons with faces. One balloon on the left is significantly larger than the other four, which are arranged around it.

bat

A box containing five line drawings of bats. One bat in the bottom left is significantly larger than the other four, which are arranged around it.
