Recognizing Fractions

Circle the fraction that shows what part of each set is shaded.

1. 
   - Globes: \(\frac{2}{3}\), \(\frac{3}{4}\), \(\frac{1}{3}\)
   - Dolphins: \(\frac{1}{4}\), \(\frac{3}{4}\), \(\frac{1}{3}\)

2. 
   - Gloves: \(\frac{2}{5}\), \(\frac{1}{5}\), \(\frac{3}{5}\)
   - Turtles: \(\frac{3}{2}\), \(\frac{1}{2}\), \(\frac{1}{3}\)

Write the fraction that shows what part of each set is shaded.

3. 
   - Watermelon slices: \(\frac{5}{5}\)
   - Reindeer: \(\frac{3}{3}\)

4. 
   - Vases: \(\frac{2}{2}\)
   - Drums: \(\frac{4}{4}\)
Recognizing Fractions

Circle the fraction that shows what part of each set is shaded.

- Globes: \( \frac{2}{3} \), \( \frac{3}{4} \), \( \frac{1}{3} \)
- Dolphins: \( \frac{1}{4} \), \( \frac{3}{4} \), \( \frac{1}{3} \)
- Gloves: \( \frac{2}{5} \), \( \frac{1}{5} \), \( \frac{3}{5} \)
- Turtles: \( \frac{3}{2} \), \( \frac{1}{2} \), \( \frac{1}{3} \)

Write the fraction that shows what part of each set is shaded.

- Watermelon slices: \( \frac{3}{5} \)
- Elk: \( \frac{2}{3} \)
- Vases: \( \frac{1}{2} \)
- Drums: \( \frac{1}{4} \)
