

Subtraction Tally

Worksheet 5

Subtract and write the answer on the line. Show your work using tally marks.
The first one is done for you.

| | |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------|
| $7 - 1 = 6$  The first problem shows the number 7 minus 1 equals 6. Below the numbers, there are seven vertical tally marks with a diagonal slash through the top four, and one vertical tally mark. Below the equals sign, there are six vertical tally marks with a diagonal slash through the top four, and one vertical tally mark. A horizontal line is drawn under the six tallies. | $10 - 8 =$ _____ _____ |
| $9 - 8 =$ _____ _____ | $7 - 6 =$ _____ _____ |
| $8 - 5 =$ _____ _____ | $10 - 9 =$ _____ _____ |
| $7 - 4 =$ _____ _____ | $9 - 5 =$ _____ _____ |

Skill: demonstrate the use of tally marks while subtracting within 10.
