

# Subtraction Tally

## Worksheet 6

Subtract and write the answer on the line. Show your work using tally marks.  
The first one is done for you.

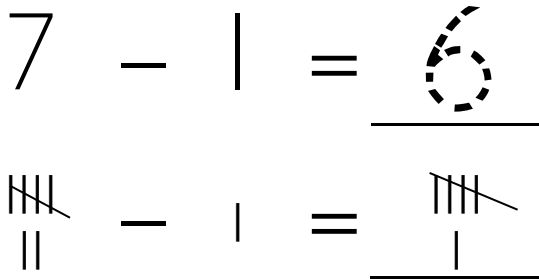

$7 - 1 = 6$  The first row shows a subtraction problem. The first part is $7 - 1 = 6$ . The number 6 is dashed. Below this, the same problem is shown with tally marks: seven vertical lines with a diagonal slash through the top four, minus one vertical line, equals six vertical lines with a diagonal slash through the top four and one vertical line below.	$9 - 2 = \underline{\quad}$ $\quad - \quad = \underline{\quad}$
$8 - 4 = \underline{\quad}$ $\quad - \quad = \underline{\quad}$	$7 - 3 = \underline{\quad}$ $\quad - \quad = \underline{\quad}$
$6 - 4 = \underline{\quad}$ $\quad - \quad = \underline{\quad}$	$10 - 7 = \underline{\quad}$ $\quad - \quad = \underline{\quad}$
$10 - 2 = \underline{\quad}$ $\quad - \quad = \underline{\quad}$	$9 - 5 = \underline{\quad}$ $\quad - \quad = \underline{\quad}$

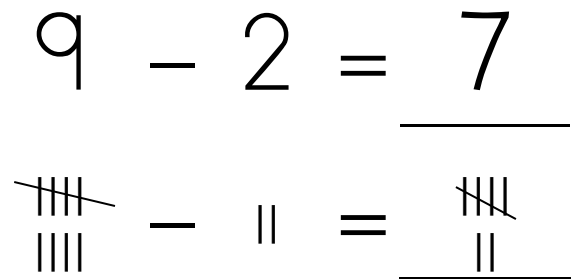

Skill: demonstrate the use of tally marks while subtracting within 10.

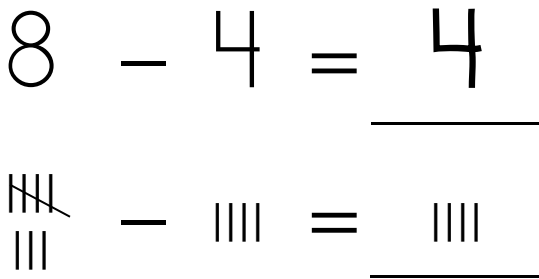

# Subtraction Tally

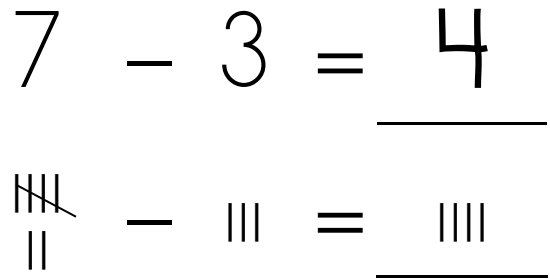

Worksheet 6

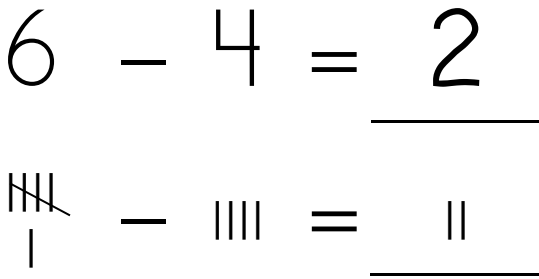

Subtract and write the answer on the line. Show your work using tally marks.  
The first one is done for you.

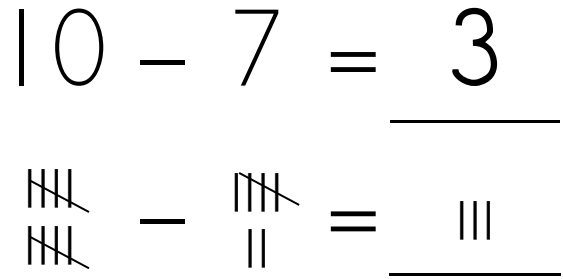

$$7 - 1 = 6$$

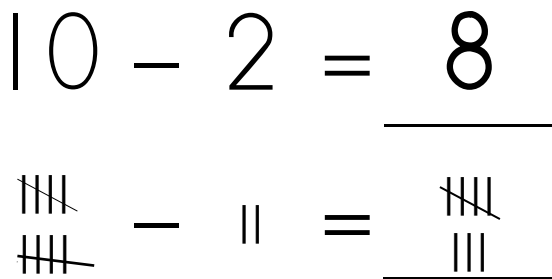

$$9 - 2 = 7$$

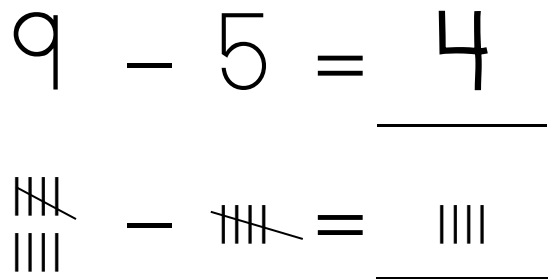

$$8 - 4 = 4$$

$$7 - 3 = 4$$

$$6 - 4 = 2$$

$$10 - 7 = 3$$

$$10 - 2 = 8$$

$$9 - 5 = 4$$

Skill: demonstrate the use of tally marks while subtracting within 10.
